

CIA AGENT PAPA DOC BARAKA EXPOSED

Leroi (Imamu Baraka) Jones was the "biggest, baddest, boldest" hustler in town. Until last week. Now everybody knows where Jones gets his money from. Now everybody knows what they thought all along is true. Everett "Leroi" Jones pimps for the CIA.

"I always knew that bastard Jones was a cop," you said to yourself. "Him and Imperiale -- I bet they work together."

They do. Under strict orders from "former" army intelligence agent Gus Heninberg and CIA agent Wadud. Their orders are to divide Newark into two armed hostile camps -- black against white -- like Vietnam hamlets. To keep Newark's working class shooting at itself, while the CIA and the poverty pimps suck the city dry in rents, mortgages, taxes, tolls; while slave labor programs like WIN, PEP and work-study reduce the working class to Brazilian peasants under Jones' direction.

Jones is the CIA's fascist choice -- the Hitler of this depression.

Jones' hustle ended last week. The National Caucus of Labor Committees (NCLC) and the Revolutionary Youth Movement (RYM) published his story "Papa Doc Baraka, Fascism in Newark" and Jones went crazy. He sent his robot goons to tear up our office--they were expelled. He sent goons to break up our press conference--they were thrown out. He sent a car to surveil our members--when we taught his fascist goons not to play with us he cried "white racism." Jones, who works for the white corporate structure--for Prudential and the banks--to sell black people into slavery, he cries "white racism!"

The NCLC and the RYM intend to run the twin-headed snake - Baraka and Imperiale - out of Newark and out of politics. We're waging this campaign in cities across the country --in Detroit, Philly, Chicago, New York, Baltimore, Boston, Atlanta. Running as U.S. Labor Party candidates in these cities--the Rotonda-Speed Mayoral Campaign in Newark--we are waging a battle for decent, productive jobs for all people, employed and unemployed organized and unorganized, to be paid for by taxing capitalists, not workers' incomes.

This is a united front campaign. There are thousands of potential working class organizers in this city who know Baraka and Imperiale are their enemy and who want a productive, creative society. You must join us. Panthers, Muslims, trade unionists, welfare recipients, students--join our fight now! Your future, your children's future depends on what you do.

Will it be class war or government-funded race war in Newark this summer? The lines are drawn and the camps are clear. The choice is yours.
